COURSE REQUIREMENTS AND GRADING

Your course syllabus includes a schedule of lectures and readings. Please read the assignment BEFORE coming to class and be prepared to discuss the material.

Regular attendance and participation in class is expected. Although there is no specific grade for discussion, I will raise the final grades of those students who are on the border between two grades if they have participated regularly and intelligently in class discussion.

Your final grade will be based on the following:

- 1) Three in-class essay examinations, each worth 20% of your grade.
- 2) One 4-5 page paper, worth 20% of your grade. You will have the option of writing the paper on any one of the following books: Sinclair Lewis, Arrowsmith; James Jones, Bad Blood; Abraham Verghese, My Own Country. A more specific assignment will be distributed later in the semester.
- 3) Five 1-page critical essays, together worth 20% of your grade. The five essays will be distributed as follows:
 - a) Two of these essays will be on the two books for which you did not write the longer paper.
 - b) You will have the option of writing the other three essays on any of the *primary* sources

assigned this semester. The only constraints are the following: they must be handed in at the beginning of class on the day we discuss the reading; and the first essay must be handed in some time in January, the second in February, and the third in March.

Summary of requirements

Feb.5	First examination
Feb. 26	First paper (or essay)
Mar.19	Second examination
Mar.31	Second paper (or essay)
Apr.14	Third paper (or essay)
Apr.25 Noon,	ALTERNATE FINAL EXAMINATION
Apr.30 3 p.m.,	FINAL EXAMINATION

POLICIES AND PENALTIES

Exams: I do not permit make-up examinations unless there is a medical, family, or personal *emergency*, in which case you **must** (if it is at all possible) come talk to me beforehand.

Papers: Any paper handed in late will be docked one grade per day. In other words, a B will drop to a B- after the first day, to a C+ after the second day, etc. This applies to both the long paper and the short essays. Papers are due at the beginning of class.

Rewrites:

- A) 4-5 page paper: You will not be permitted to rewrite this paper. You may, however, choose to write an additional paper on one of the other books, provided we have not yet discussed the book in class. In the event that you choose this option, the lower grade will be worth 5%; the higher grade, 15%.
- B) 1-page critical essays: Again, rewrites are not permitted. You may, however, drop the lowest grade of the five. Please note, though, *that everyone must write all five essays*. Anyone failing to do so will have their essay grade lowered by one grade (for example, a B drops to a B-).

If you are having difficulty with the material in this course, do not wait until the end of the semester to come see me or the teaching fellow. It is possible to learn how to write good essay examinations and papers, and we are willing to help you do so.

Vanderbilt's Honor Code governs all work in this course. If you have any questions, please ask me--not another student--for clarification.
